Taimoor Hussain

Unity Game Dev

Unity Game Developer with 4+ years of experience developing production-ready mobile games using Unity, C#, architecture, AI, optimization, monetization, and reusable gameplay frameworks.

EDUCATION

BSCS

Islamia University Bahawalpur **2014 - 2018**

EXPERIENCE

Unity Game Developer

Hazel Mobile **2023 - 2025**

- **Built core gameplay systems and game architecture using C# and Unity.**
- **Integrated third-party SDKs (Ads, Analytics, Firebase, Google Play Services, etc.).**

Unity Game Developer

Tech Neck **2022 - 2023**

- **Developed and maintained multiple Unity mobile games from scratch.**

PROJECTS

Idle Vlogger

Reusable mobile game framework featuring modular gameplay systems, Addressables, event-driven communication, and scalable project structure.

https://github.com/TaimoorGamez/Kamal---Idle-Vlogger.git

Endless TerrainFramework

Reusable open-world framework with infinite terrain streaming, ScriptableObject architecture, modular AI, and event-driven systems.

https://github.com/TaimoorGamez/PolicePursuit.git

Sorting & Painting

Reusable texture-painting framework featuring custom shaders, optimized rendering, extensible tools, and modular gameplay architecture.

https://github.com/TaimoorGamez/Water-Sort.git

Ludo

Modular board game architecture supporting multiple game modes, configurable AI strategies, and offline multiplayer.

https://play.google.com/store/apps/details?id=com.ludo.world.fun.dice.game&hl=en

Ship Jam

Puzzle framework featuring grid-based architecture, pathfinding, data-driven levels, modular gameplay systems, and scalable puzzle generation.

https://play.google.com/store/apps/details?id=com.ship.parking.jam.traffic.rush&hl=en

Tattoo Shop

Production mobile game built on a reusable painting framework with modular gameplay systems, ScriptableObject architecture, and optimized mobile workflows.
